Key Features

Key Features

- Introduction to the range and types of biological data
- Introduction to databases.
- What are the key features a database must have?
- Construction and querying of relational databases: SQL
- Types of Biological database
- Searching Web database
- Different types of biological database
- Database and Information retrieval
- Various methods of database searching
- Analysis of the Data from the Database

BIOLOGICAL

Database

CD-I

Contents

- Introduction of Biological Databases
- Types of Biological Databases
- Searching Web Databases
- Presentations
- Research Papers
- White Papers
- List of Websites

CD-II

Contents

- Biological Databases & Their Management
- Audio / Videos Clips
- Web Resources
- NCBI
- PDB
- GenBank
- Self-Evaluation Series
- List of Books & Journals
- Practical
- Glossary
- Help files

This CD is aimed to design and disseminate information to understand the role and utility of biological database. The purpose of this C.D is to make easy understanding of biological database to the biologists, who are consumers of database technology and database research.

The C.D contains The maximum information on biological database and its role to the biologist. It also suggest Basics of biological database and how to design the biological database.

PURCHASE ORDER FORM

(Please fill the form in **BLOCK** letters only)

No column should be left blank

Purchaser / Shipment details

Individuals / Organizational Name: _____

Dispatch Address: _____

City: _____ State: _____

Country: _____ PIN: _____

Phone No.: _____

E-mail: _____

Cost of Product

Quantity	Indian Rs.	US \$
#1	Rs. 450/-	\$100

Payment Details

No. of Units:

Crossed demand draft no. / cheque no. _____

dated _____ drawn on _____

for Rs. _____

(Bank draft must be drawn in favour of "Bioinformatics Institute of India" payable at New Delhi/ Delhi. Purchasers are advised to write their / organizational name and address at the back of demand draft)
