Key Features

- Gene Cloning
- Practical of Genetic Engineering
- Application of Genetic Engineering
- Recombinant DNA Technology
- Gene Therapy
- Probe DNA
- DNA Finger-Printing
- cDNA Libraries
- Glossary
- Figures
- Question Bank

CD-I

- Concepts of Genetic Engineering
- Restriction Enzymes
- Plasmids
- Isolation of Nucleic Acids
- Cloning
- Research Papers
- Movies and Clips
- Presentations

CD-II

- Techniques in Genetic Engineering
- Polymerase Chain Reaction
- Recombinant DNA
- Electrophoresis
- DNA Finger-Printing
- Practicals
- Movies & Clips
- White Papers
- Figures
- Question Bank
- Glossary

Genetic Engineering is the manipulation of genetic material for the welfare of the human society. This multimedia CD – "Genetic Engineering" aims to provide in-depth knowledge of the concepts, techniques and applications of genetic Engineering in the various fields like plants, animals, medicine etc.

CD endows detailed information of the subject, which would be of an immense help to students, researchers and professionals. The innovative content of the CD would open up new avenues for the students and professionals.

Multimedia GENETIC ENGINEERING

- Concepts of Genetic Engineering
- Applications
- Bioethics
- Safety of Genetic Engineering
- Cloning

- Review of Papers
- Movies and Clips
- Presentation

PURCHASE ORDER FORM

(Please fill the form in BLOCK letters only)

No column should be left blank

Purchaser / Shipment details

Individuals / Organizational Name: _____

Dispatch Address: _____

City: _____ State: _____

Country: _____ PIN: _____

Phone No.: _____

E-mail: _____

Cost of Product

Quantity	Indian Rs.	US \$
#1	Rs. 450/-	\$100

Payment Details

No. of Units

Crossed demand draft no. / cheque no. _____

dated _____ drawn on _____

for Rs. _____

(Bank draft must be drawn in favour of "Bioinformatics Institute of India" payable at New Delhi/ Delhi. Purchasers are advised to write their (organizational name and address at the back of demand draft)
